# The Best of the Rest at London Design Festival 2018

by Jill Singer

We featured some of our favorite exhibitions from this year's London Design Festival [here](#), [here](#), and [here](#), but today we're taking you on a tour of some of our other 2018 picks. For the second year in a row, [Swedish Ninja](#) launched one of our favorite objects, this year in the form of small, mix-and-match glass sculptures. [Studio Anansi](#) capitalized on the lumpy and tubular trends with its chiseled sycamore table mirror. [Skandium](#) took up the mantle of [Peter Pilotto](#), with its

similarly color-blocked townhouse takeover. And the Ace Hotel continued its Ready Made Go collaboration with Modern Design Review; following last year's requirement that all objects be made using sustainable materials, this year's designers were tasked with collaborating with a local social enterprise to create their piece. Here's hoping that *that* becomes the trend to follow us into 2019.
